### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Truong Dinh on November 9, 2006.

The application has been amended as follows:

Please cancel claims 31 and 32.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose nor suggest an activity detector configured to receive the first and second signals, to detect for speech activity based on the first and second signals and to provide a control signal indicative of detect speech activity and a controller coupled to the first and second forming units and the activity detector and configured to receive the control signal and to enable the first beam forming unit to adapt during periods of speech activity and to enable the second beam forming unit to adapt during periods of non-speech activity. While Oh et al teach a system comprising an adaptive filter 26 that only adapts to periods of non-speech activity, there is no teaching of adapting a beam forming unit during periods of speech activity. As a result, independent claims 1, 20, and 27 and their dependents are allowed.

Newly cited prior art references Janse, US Patent 5,610,991 and Kellermann, US Patent 5,602,962 are identified because they each disclose a mobile communication device comprising a microphone array and noise suppression unit. However, there is no disclosure of beam forming

units, speech activity detectors, or controllers for controlling the beam forming units based on the detection of speech.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian T. Pendleton whose telephone number is (571) 272-7527. The examiner can normally be reached on M-F 7-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vivian Chin can be reached on (571) 272-7848. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
